Differential Expression (log2 fold)
Development_CNTF receptor signaling
Development_Ligand-dependent activation of the ESR1/AP-1 pathway
Development_Thrombopoietin-regulated cell processes
Immune response_IL-12-induced IFN-gamma production
Translation _Regulation of EIF2 activity
Aminoacyl-tRNA biosynthesis in cytoplasm/ Rodent version
Aminoacyl-tRNA biosynthesis in cytoplasm
Cytoskeleton remodeling_RalB regulation pathway
Immune response_CD28 signaling
Immune response_MIF-JAB1 signaling
Development_PDGF signaling via STATs and NF-kB
Development_HGF signaling pathway
Immune response_IL-6 signaling pathway
MUTATION
